

Type **Cooker** Level 1

Width: **Narrow** *Not much overall width.*

Weight: **Bold** *All strokes are heavy.*

Construction: **Capitals** *Construct the letters as capitals.*

Stroke endings: **Straight, no serif** *The strokes do not end in serifs.*

Contrast amount: **A lot** *Thicks are a lot thicker than the thins.*

Type Cooker Level 1

Width: **Normal** A normal width.

Weight: **Plain** All strokes are plain. Not too light, not too heavy.

Construction: **Capitals** Construct the letters as capitals.

Stroke endings: **Straight, no serif** The strokes do not end in serifs.

Contrast amount: **Low** Thicks are similar to thins.

Type **Cooker** Level 1

Width: **Narrow** *Not much overall width.*

Weight: **Light** *All strokes are light, but not extremely.*

Construction: **Roman** *Construct the letters as lowercase romans.*

Stroke endings: **Serifs** *The strokes end in serifs.*

Contrast amount: **Some** *Thicks are similar to thins but you can tell the difference.*

Type Cooker Level 1

Width: **Normal** A normal width.

Weight: **Plain** All strokes are plain. Not too light, not too heavy.

Construction: **Roman** Construct the letters as lowercase romans.

Stroke endings: **Serifs** The strokes end in serifs.

Contrast amount: **Low** Thicks are similar to thins.

Type Cooker Level 1

Width: Extended *The overall width is larger than normal. (But what is normal)*

Weight: Plain *All strokes are plain. Not too light, not too heavy.*

Construction: Capitals *Construct the letters as capitals.*

Stroke endings: Straight, no serif *The strokes do not end in serifs.*

Contrast amount: Low *Thicks are similar to thins.*

Type Cooker Level 1

Width: Extended The overall width is larger than normal. (But what is normal)

Weight: Plain All strokes are plain. Not too light, not too heavy.

Construction: Roman Construct the letters as lowercase romans.

Stroke endings: Serifs The strokes end in serifs.

Contrast amount: A lot Thicks are a lot thicker than the thins.

Type **Cooker** Level 1

Width: **Normal** A normal width.

Weight: **Bold** All strokes are heavy.

Construction: **Roman** Construct the letters as lowercase romans.

Stroke endings: **Serifs** The strokes end in serifs.

Contrast amount: **A lot** Thicks are a lot thicker than the thins.

Type **Cooker** Level 1

Width: **Normal** A normal width.

Weight: **Light** All strokes are light, but not extremely.

Construction: **Roman** Construct the letters as lowercase romans.

Stroke endings: **Serifs** The strokes end in serifs.

Contrast amount: **Low** Thicks are similar to thins.

Type Cooker Level 1

Width: Narrow *Not much overall width.*

Weight: Plain *All strokes are plain. Not too light, not too heavy.*

Construction: Roman *Construct the letters as lowercase romans.*

Stroke endings: Serifs *The strokes end in serifs.*

Contrast amount: A lot *Thicks are a lot thicker than the thins.*

Type **Cooker** Level 1

Width: **Normal** A normal width.

Weight: **Plain** All strokes are plain. Not too light, not too heavy.

Construction: **Capitals** Construct the letters as capitals.

Stroke endings: **Serifs** The strokes end in serifs.

Contrast amount: **Low** Thicks are similar to thins.

Type Cooker Level 1

Width: Extended The overall width is larger than normal. (But what is normal)

Weight: Plain All strokes are plain. Not too light, not too heavy.

Construction: Roman Construct the letters as lowercase romans.

Stroke endings: Serifs The strokes end in serifs.

Contrast amount: Low Thicks are similar to thins.

Type Cooker Level 1

Width: Extended The overall width is larger than normal. (But what is normal)

Weight: Light All strokes are light, but not extremely.

Construction: Roman Construct the letters as lowercase romans.

Stroke endings: Straight, no serif The strokes do not end in serifs.

Contrast amount: Some Thicks are similar to thins but you can tell the difference.

Type Cooker Level 1

Width: **Normal** A normal width.

Weight: **Light** All strokes are light, but not extremely.

Construction: **Roman** Construct the letters as lowercase romans.

Stroke endings: **Straight, no serif** The strokes do not end in serifs.

Contrast amount: **Some** Thicks are similar to thins but you can tell the difference.

Type **Cooker** *Level 1*

Width: **Narrow** *Not much overall width.*

Weight: **Bold** *All strokes are heavy.*

Construction: **Roman** *Construct the letters as lowercase romans.*

Stroke endings: **Serifs** *The strokes end in serifs.*

Contrast amount: **Low** *Thicks are similar to thins.*

Type **Cooker** *Level 1*

Width: **Narrow** *Not much overall width.*

Weight: **Bold** *All strokes are heavy.*

Construction: **Roman** *Construct the letters as lowercase romans.*

Stroke endings: **Serifs** *The strokes end in serifs.*

Contrast amount: **Low** *Thicks are similar to thins.*

Type Cooker Level 1

Width: **Normal** A normal width.

Weight: **Plain** All strokes are plain. Not too light, not too heavy.

Construction: **Roman** Construct the letters as lowercase romans.

Stroke endings: **Straight, no serif** The strokes do not end in serifs.

Contrast amount: **Some** Thicks are similar to thins but you can tell the difference.

Type Cooker Level 1

Width: Normal *A normal width.*

Weight: Plain *All strokes are plain. Not too light, not too heavy.*

Construction: Roman *Construct the letters as lowercase romans.*

Stroke endings: Serifs *The strokes end in serifs.*

Contrast amount: A lot *Thicks are a lot thicker than the thins.*

Type Cooker Level 1

Width: **Normal** A normal width.

Weight: **Bold** All strokes are heavy.

Construction: **Capitals** Construct the letters as capitals.

Stroke endings: **Straight, no serif** The strokes do not end in serifs.

Contrast amount: **A lot** Thicks are a lot thicker than the thins.

Type **Cooker** Level 1

Width: **Normal** A normal width.

Weight: **Light** All strokes are light, but not extremely.

Construction: **Roman** Construct the letters as lowercase romans.

Stroke endings: **Serifs** The strokes end in serifs.

Contrast amount: **A lot** Thicks are a lot thicker than the thins.

Type **Cooker** Level 1

Width: **Normal** A normal width.

Weight: **Light** All strokes are light, but not extremely.

Construction: **Roman** Construct the letters as lowercase romans.

Stroke endings: **Serifs** The strokes end in serifs.

Contrast amount: **Some** Thicks are similar to thins but you can tell the difference.

Type Cooker Level 1

Width: Extended The overall width is larger than normal. (But what is normal)

Weight: Light All strokes are light, but not extremely.

Construction: Capitals Construct the letters as capitals.

Stroke endings: Serifs The strokes end in serifs.

Contrast amount: Some Thicks are similar to thins but you can tell the difference.

Type Cooker Level 1

Width: Extended The overall width is larger than normal. (But what is normal)

Weight: Plain All strokes are plain. Not too light, not too heavy.

Construction: Capitals Construct the letters as capitals.

Stroke endings: Straight, no serif The strokes do not end in serifs.

Contrast amount: A lot Thicks are a lot thicker than the thins.

Type Cooker Level 1

Width: Extended The overall width is larger than normal. (But what is normal)

Weight: Plain All strokes are plain. Not too light, not too heavy.

Construction: Roman Construct the letters as lowercase romans.

Stroke endings: Serifs The strokes end in serifs.

Contrast amount: Low Thicks are similar to thins.

Type **Cooker** Level 1

Width: **Normal** A normal width.

Weight: **Light** All strokes are light, but not extremely.

Construction: **Roman** Construct the letters as lowercase romans.

Stroke endings: **Serifs** The strokes end in serifs.

Contrast amount: **Low** Thicks are similar to thins.

Type Cooker Level 1

Width: Normal *A normal width.*

Weight: Plain *All strokes are plain. Not too light, not too heavy.*

Construction: Roman *Construct the letters as lowercase romans.*

Stroke endings: Straight, no serif *The strokes do not end in serifs.*

Contrast amount: Low *Thicks are similar to thins.*

Type Cooker Level 1

Width: **Normal** A normal width.

Weight: **Bold** All strokes are heavy.

Construction: **Roman** Construct the letters as lowercase romans.

Stroke endings: **Straight, no serif** The strokes do not end in serifs.

Contrast amount: **Some** Thicks are similar to thins but you can tell the difference.

Type Cooker Level 1

Width: Normal *A normal width.*

Weight: Plain *All strokes are plain. Not too light, not too heavy.*

Construction: Roman *Construct the letters as lowercase romans.*

Stroke endings: Serifs *The strokes end in serifs.*

Contrast amount: A lot *Thicks are a lot thicker than the thins.*

Type **Cooker** Level 1

Width: **Narrow** *Not much overall width.*

Weight: **Plain** *All strokes are plain. Not too light, not too heavy.*

Construction: **Capitals** *Construct the letters as capitals.*

Stroke endings: **Serifs** *The strokes end in serifs.*

Contrast amount: **Low** *Thicks are similar to thins.*

Type Cooker Level 1

Width: Extended The overall width is larger than normal. (But what is normal)

Weight: Plain All strokes are plain. Not too light, not too heavy.

Construction: Capitals Construct the letters as capitals.

Stroke endings: Serifs The strokes end in serifs.

Contrast amount: Some Thicks are similar to thins but you can tell the difference.

Type Cooker Level 1

Width: **Normal** A normal width.

Weight: **Plain** All strokes are plain. Not too light, not too heavy.

Construction: **Roman** Construct the letters as lowercase romans.

Stroke endings: **Straight, no serif** The strokes do not end in serifs.

Contrast amount: **A lot** Thicks are a lot thicker than the thins.

Type **Cooker** Level 1

Width: **Normal** A normal width.

Weight: **Light** All strokes are light, but not extremely.

Construction: **Capitals** Construct the letters as capitals.

Stroke endings: **Straight, no serif** The strokes do not end in serifs.

Contrast amount: **Some** Thicks are similar to thins but you can tell the difference.

Type Cooker Level 1

Width: **Normal** A normal width.

Weight: **Light** All strokes are light, but not extremely.

Construction: **Capitals** Construct the letters as capitals.

Stroke endings: **Straight, no serif** The strokes do not end in serifs.

Contrast amount: **Some** Thicks are similar to thins but you can tell the difference.

Type Cooker Level 1

Width: Normal *A normal width.*

Weight: Plain *All strokes are plain. Not too light, not too heavy.*

Construction: Roman *Construct the letters as lowercase romans.*

Stroke endings: Serifs *The strokes end in serifs.*

Contrast amount: Low *Thicks are similar to thins.*

Type Cooker Level 1

Width: Extended The overall width is larger than normal. (But what is normal)

Weight: Bold All strokes are heavy.

Construction: Roman Construct the letters as lowercase romans.

Stroke endings: Straight, no serif The strokes do not end in serifs.

Contrast amount: Some Thicks are similar to thins but you can tell the difference.

Type Cooker Level 1

Width: Extended The overall width is larger than normal. (But what is normal)

Weight: Bold All strokes are heavy.

Construction: Roman Construct the letters as lowercase romans.

Stroke endings: Straight, no serif The strokes do not end in serifs.

Contrast amount: Some Thicks are similar to thins but you can tell the difference.

Type Cooker Level 1

Width: Extended The overall width is larger than normal. (But what is normal)

Weight: Light All strokes are light, but not extremely.

Construction: Roman Construct the letters as lowercase romans.

Stroke endings: Straight, no serif The strokes do not end in serifs.

Contrast amount: A lot Thicks are a lot thicker than the thins.

Type **Cooker** Level 1

Width: **Narrow** *Not much overall width.*

Weight: **Plain** *All strokes are plain. Not too light, not too heavy.*

Construction: **Capitals** *Construct the letters as capitals.*

Stroke endings: **Serifs** *The strokes end in serifs.*

Contrast amount: **Some** *Thicks are similar to thins but you can tell the difference.*

Type Cooker Level 1

Width: **Normal** A normal width.

Weight: **Bold** All strokes are heavy.

Construction: **Capitals** Construct the letters as capitals.

Stroke endings: **Straight, no serif** The strokes do not end in serifs.

Contrast amount: **A lot** Thicks are a lot thicker than the thins.

Type **Cooker** *Level 1*

Width: **Normal** *A normal width.*

Weight: **Bold** *All strokes are heavy.*

Construction: **Roman** *Construct the letters as lowercase romans.*

Stroke endings: **Serifs** *The strokes end in serifs.*

Contrast amount: **Low** *Thicks are similar to thins.*

Type Cooker Level 1

Width: **Normal** A normal width.

Weight: **Bold** All strokes are heavy.

Construction: **Capitals** Construct the letters as capitals.

Stroke endings: **Straight, no serif** The strokes do not end in serifs.

Contrast amount: **Some** Thicks are similar to thins but you can tell the difference.

Type Cooker Level 1

Width: Normal A normal width.

Weight: Plain All strokes are plain. Not too light, not too heavy.

Construction: Roman Construct the letters as lowercase romans.

Stroke endings: Straight, no serif The strokes do not end in serifs.

Contrast amount: A lot Thicks are a lot thicker than the thins.

Type Cooker Level 1

Width: **Normal** A normal width.

Weight: **Plain** All strokes are plain. Not too light, not too heavy.

Construction: **Capitals** Construct the letters as capitals.

Stroke endings: **Straight, no serif** The strokes do not end in serifs.

Contrast amount: **Some** Thicks are similar to thins but you can tell the difference.

Type Cooker Level 1

Width: Extended The overall width is larger than normal. (But what is normal)

Weight: Bold All strokes are heavy.

Construction: Roman Construct the letters as lowercase romans.

Stroke endings: Serifs The strokes end in serifs.

Contrast amount: A lot Thicks are a lot thicker than the thins.

Type Cooker Level 1

Width: **Normal** A normal width.

Weight: **Bold** All strokes are heavy.

Construction: **Roman** Construct the letters as lowercase romans.

Stroke endings: **Straight, no serif** The strokes do not end in serifs.

Contrast amount: **Some** Thicks are similar to thins but you can tell the difference.

Construction: **Roman** *Construct the letters as lowercase romans.*

Stroke endings: **Straight, no serif** *The strokes do not end in serifs.*

Contrast amount: **Low** *Thicks are similar to thins.*

Type **Cooker** *Level 1*

Width: **Narrow** *Not much overall width.*

Weight: **Bold** *All strokes are heavy.*

Construction: **Roman** *Construct the letters as lowercase romans.*

Stroke endings: **Serifs** *The strokes end in serifs.*

Contrast amount: **Some** *Thicks are similar to thins but you can tell the difference.*

Type Cooker Level 1

Width: Extended The overall width is larger than normal. (But what is normal)

Weight: Plain All strokes are plain. Not too light, not too heavy.

Construction: Roman Construct the letters as lowercase romans.

Stroke endings: Straight, no serif The strokes do not end in serifs.

Contrast amount: Some Thicks are similar to thins but you can tell the difference.

Type **Cooker** Level 1

Width: **Normal** A normal width.

Weight: **Bold** All strokes are heavy.

Construction: **Roman** Construct the letters as lowercase romans.

Stroke endings: **Serifs** The strokes end in serifs.

Contrast amount: **A lot** Thicks are a lot thicker than the thins.

Type Cooker Level 1

Width: Extended The overall width is larger than normal. (But what is normal)

Weight: Bold All strokes are heavy.

Construction: Roman Construct the letters as lowercase romans.

Stroke endings: Straight, no serif The strokes do not end in serifs.

Contrast amount: A lot Thicks are a lot thicker than the thins.

Type **Cooker** Level 1

Width: **Normal** A normal width.
Weight: **Bold** All strokes are heavy.
Construction: **Capitals** Construct the letters as capitals.
Stroke endings: **Serifs** The strokes end in serifs.
Contrast amount: **Low** Thicks are similar to thins.

Type Cooker Level 1

Width: **Normal** A normal width.

Weight: **Plain** All strokes are plain. Not too light, not too heavy.

Construction: **Roman** Construct the letters as lowercase romans.

Stroke endings: **Serifs** The strokes end in serifs.

Contrast amount: **Low** Thicks are similar to thins.

Type Cooker Level 1

Width: **Normal** A normal width.

Weight: **Plain** All strokes are plain. Not too light, not too heavy.

Construction: **Roman** Construct the letters as lowercase romans.

Stroke endings: **Serifs** The strokes end in serifs.

Contrast amount: **Some** Thicks are similar to thins but you can tell the difference.

Type Cooker Level 1

Width: Extended *The overall width is larger than normal. (But what is normal)*

Weight: Plain *All strokes are plain. Not too light, not too heavy.*

Construction: Roman *Construct the letters as lowercase romans.*

Stroke endings: Straight, no serif *The strokes do not end in serifs.*

Contrast amount: Low *Thicks are similar to thins.*

Type Cooker Level 1

Width: Extended The overall width is larger than normal. (But what is normal)

Weight: Plain All strokes are plain. Not too light, not too heavy.

Construction: Capitals Construct the letters as capitals.

Stroke endings: Serifs The strokes end in serifs.

Contrast amount: A lot Thicks are a lot thicker than the thins.

Type Cooker Level 1

Width: Extended The overall width is larger than normal. (But what is normal)

Weight: Plain All strokes are plain. Not too light, not too heavy.

Construction: Roman Construct the letters as lowercase romans.

Stroke endings: Serifs The strokes end in serifs.

Contrast amount: A lot Thicks are a lot thicker than the thins.

Type **Cooker** *Level 1*

Width: **Narrow** *Not much overall width.*

Weight: **Plain** *All strokes are plain. Not too light, not too heavy.*

Construction: **Roman** *Construct the letters as lowercase romans.*

Stroke endings: **Serifs** *The strokes end in serifs.*

Contrast amount: **Some** *Thicks are similar to thins but you can tell the difference.*

Type Cooker Level 1

Width: Normal *A normal width.*

Weight: Plain *All strokes are plain. Not too light, not too heavy.*

Construction: Capitals *Construct the letters as capitals.*

Stroke endings: Straight, no serif *The strokes do not end in serifs.*

Contrast amount: Some *Thicks are similar to thins but you can tell the difference.*

Type **Cooker** Level 1

Width: **Normal** A normal width.

Weight: **Plain** All strokes are plain. Not too light, not too heavy.

Construction: **Capitals** Construct the letters as capitals.

Stroke endings: **Serifs** The strokes end in serifs.

Contrast amount: **Low** Thicks are similar to thins.

Type **Cooker** Level 1

Width: **Normal** A normal width.

Weight: **Bold** All strokes are heavy.

Construction: **Roman** Construct the letters as lowercase romans.

Stroke endings: **Serifs** The strokes end in serifs.

Contrast amount: **A lot** Thicks are a lot thicker than the thins.

Type Cooker Level 1

Width: Normal A normal width.

Weight: Plain All strokes are plain. Not too light, not too heavy.

Construction: Roman Construct the letters as lowercase romans.

Stroke endings: Straight, no serif The strokes do not end in serifs.

Contrast amount: A lot Thicks are a lot thicker than the thins.

Type Cooker Level 1

Width: Extended The overall width is larger than normal. (But what is normal)

Weight: Plain All strokes are plain. Not too light, not too heavy.

Construction: Roman Construct the letters as lowercase romans.

Stroke endings: Serifs The strokes end in serifs.

Contrast amount: Some Thicks are similar to thins but you can tell the difference.

Type Cooker Level 1

Width: Normal A normal width.

Weight: Plain All strokes are plain. Not too light, not too heavy.

Construction: Roman Construct the letters as lowercase romans.

Stroke endings: Straight, no serif The strokes do not end in serifs.

Contrast amount: A lot Thicks are a lot thicker than the thins.

Type **Cooker** Level 1

Width: **Narrow** *Not much overall width.*

Weight: **Plain** *All strokes are plain. Not too light, not too heavy.*

Construction: **Capitals** *Construct the letters as capitals.*

Stroke endings: **Straight, no serif** *The strokes do not end in serifs.*

Contrast amount: **Low** *Thicks are similar to thins.*

Type **Cooker** Level 1

Width: **Normal** A normal width.

Weight: **Plain** All strokes are plain. Not too light, not too heavy.

Construction: **Capitals** Construct the letters as capitals.

Stroke endings: **Straight, no serif** The strokes do not end in serifs.

Contrast amount: **Low** Thicks are similar to thins.

Type **Cooker** *Level 1*

Width: **Narrow** *Not much overall width.*

Weight: **Plain** *All strokes are plain. Not too light, not too heavy.*

Construction: **Capitals** *Construct the letters as capitals.*

Stroke endings: **Straight, no serif** *The strokes do not end in serifs.*

Weight: **Plain** *All strokes are plain. Not too light, not too heavy.*

Construction: **Roman** *Construct the letters as lowercase romans.*

Stroke endings: **Straight, no serif** *The strokes do not end in serifs.*

Contrast amount: **A lot** *Thicks are a lot thicker than the thins.*

Type Cooker Level 1

Width: Extended The overall width is larger than normal. (But what is normal)

Weight: Plain All strokes are plain. Not too light, not too heavy.

Construction: Roman Construct the letters as lowercase romans.

Stroke endings: Serifs The strokes end in serifs.

Contrast amount: A lot Thicks are a lot thicker than the thins.

Type Cooker Level 1

Width: Extended The overall width is larger than normal. (But what is normal)

Weight: Light All strokes are light, but not extremely.

Construction: Capitals Construct the letters as capitals.

Stroke endings: Serifs The strokes end in serifs.

Contrast amount: A lot Thicks are a lot thicker than the thins.

Type Cooker Level 1

Width: Extended The overall width is larger than normal. (But what is normal)

Weight: Plain All strokes are plain. Not too light, not too heavy.

Construction: Roman Construct the letters as lowercase romans.

Stroke endings: Serifs The strokes end in serifs.

Contrast amount: Some Thicks are similar to thins but you can tell the difference.

Type **Cooker** Level 1

Width: **Narrow** *Not much overall width.*

Weight: **Plain** *All strokes are plain. Not too light, not too heavy.*

Construction: **Roman** *Construct the letters as lowercase romans.*

Stroke endings: **Serifs** *The strokes end in serifs.*

Contrast amount: **Low** *Thicks are similar to thins.*

Type **Cooker** *Level 1*

Width: **Narrow** *Not much overall width.*

Weight: **Light** *All strokes are light, but not extremely.*

Construction: **Capitals** *Construct the letters as capitals.*

Stroke endings: **Straight, no serif** *The strokes do not end in serifs.*

Contrast amount: **Some** *Thicks are similar to thins but you can tell the difference.*

Type Cooker Level 1

Width: **Normal** A normal width.

Weight: **Plain** All strokes are plain. Not too light, not too heavy.

Construction: **Capitals** Construct the letters as capitals.

Stroke endings: **Serifs** The strokes end in serifs.

Contrast amount: **A lot** Thicks are a lot thicker than the thins.

Type Cooker Level 1
